About Us

Welcome to Mermaid Inspection Services LLP – your trusted partner for innovative and cost-effective height access solutions across demanding industries. We deliver safe, efficient, and reliable rope access services tailored to meet the most challenging project requirements across marine, offshore, industrial, and high-rise environments.

Mermaid Inspection Services LLP is a specialized service provider offering rope access-based inspection, maintenance, cleaning, and coating solutions. We serve key sectors including Marine, Offshore Oil & Gas, Wind Energy, Onshore Industrial Plants, and Building Maintenance.

Mermaid Inspection Services LLP works in collaboration with established marine and offshore companies to deliver integrated project solutions, combining rope access, inspection, repair, and maintenance services under one service framework.

Since 2024

Officially registered with the Ministry of Corporate Affairs in 2025, the company builds on extensive industry experience gained through prior project execution, strategic collaborations, and deployment of highly skilled rope access technicians. Since **2024**, we have been actively supplying IRATA-certified rope access manpower to various industrial and marine projects, supporting inspection, maintenance, and shutdown operations.
